# Three Decades Of Expertise. Engineered Into Quality Rubber Components.

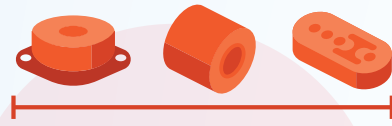

[www.myrubbercouncil.com](http://www.myrubbercouncil.com)

@MYrubbercouncil

## Why Source From Malaysian Manufacturers

### WIDE RANGE

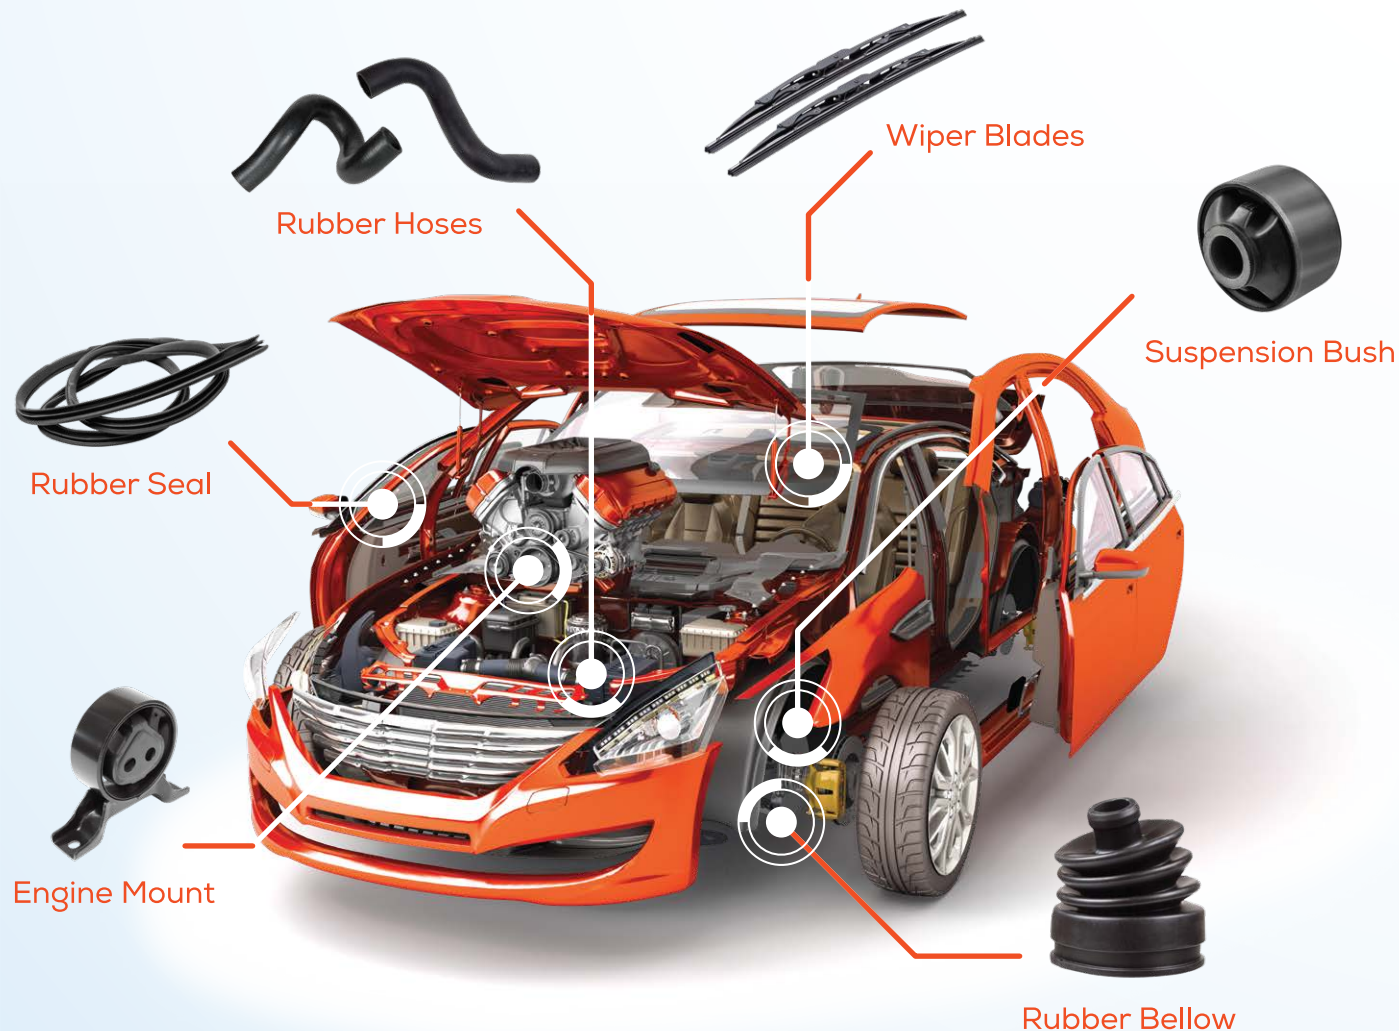

#### Common & Complex Components

Malaysian manufacturers offer a wide array of automotive components for engine, chassis, transmission and suspension. The components include car mats, weather-strips, various types of hoses, dust covers, boots and bellows, and mud flaps. The expertise extends to more complex components which include bushes, seals, gaskets, vibration mountings, and various other rubber-to-metal bonded parts.

### QUALITY PRODUCTS

#### Through Excellent Compounds

Exceptional experience in formulating excellent rubber compounds which are critical to achieve durability and high quality products. Modern equipment and a highly trained workforce ensure the components are produced to meet precise dimensional and performance tolerance requirements.

## Malaysia: Over 140 YEARS OF EXPERIENCE

In the Rubber Industry

### TRUSTED PARTNER

#### Over 30 years of experience

Malaysian rubber automotive component manufacturers, who have more than 30 years of experience in the field, are seeking to expand capacity and develop new markets either on their own or through strategic collaborations and partnerships with another commercial entity.

### R&D

#### With Certified Laboratories

Malaysia is well placed to adapt and innovate to meet stringent and ever-changing requirements of car makers and consumers, with R&D support provided by certified laboratories of the Malaysian Rubber Board (MRB) in Malaysia and Tun Abdul Razak Research Centre (TARRC) in the United Kingdom.

## Advantages of Made in Malaysia Rubber Components

### REPUTABLE

#### Established Reputation ★★★★★

Malaysia has over 140 years of experience in the rubber industry. Today, Malaysian manufacturers produce quality rubber automotive components for original equipment and aftermarket for various vehicle brands around the world.

### INTERNATIONAL STANDARDS

#### Ensuring Reliable & Assured Quality

Malaysian rubber automotive component manufacturers have been certified as compliant to international standards such as IATF 16949, ISO 9001 and ISO 14000, demonstrating commitment to quality and environment.
